VADYM LUTSYK

QA LEAD & PRODUCT OWNER

ABOUT ME

With **7 years** of experience and a robust QA background, I specialize in test automation and software development, consistently prioritizing software quality and team collaboration. Dedicated to continuous improvement, I also take on Product Owner responsibilities, ensuring software requirements align with stakeholder needs, delivering value-driven solutions for users.

EXPERIENCE

QA Lead/PO
Jun 2021-Jul 2023
Yuugen Studios

Leading a QA team to deliver top-tier software, I specialize in test automation using tools like WebdriverIO and Playwright, streamline CI/CD with Jenkins and Docker, conduct performance tests, employ AWS for cloud deployment, contribute with TypeScript and ReactJS, mentor QA interns, and as a Product Owner, ensure software aligns with stakeholder needs while refining product backlogs.

QA Automation Engineer
Dec 2020-Jun 2021
Portals100

Conducted comprehensive testing using JavaScript, WebdriverIO, and Jasmine; collaborated with developers to enhance software; and maintained CI/CD pipelines using Jenkins and Docker for optimized development and deployment.

QA & Project Managemer
Oct 2018-Dec 2020
AgileNix

At AgileNix, I led quality assurance and software projects, emphasizing management responsibilities. I coordinated cross-functional teams, managed risks, ensured timely product and project deliveries, and fostered effective communication between teams and stakeholders to elevate team performance and ensure top-tier product quality.

English - Upper intermediate

Ukrainian - Fluent

QA Automation Engineer
Jan 2018-Sep 2018

Elromco

In this role, I developed and maintained automated tests using JavaScript and Selenium WebDriver, engaged throughout the software development lifecycle—from crafting test cases to bug verification—and authored user documentation to bolster product support and understanding for users.

Software Tester
Feb 2017-Jan 2018

uTest

As a Gold-rated tester, I conducted manual testing on web, mobile, and desktop applications across diverse industries, crafted detailed bug reports, and performed a suite of tests, including regression, exploratory, and GUI, ensuring thorough product quality assurance.

EDUCATION

Kyiv National University of Culture and Arts
Master's degree, Advertising & Public relations
2010-2015

CERTIFICATION

Scrum Fundamentals Certified
SCRUMstudy - Accreditation Body for Scrum and Agile
2017

MY LATEST PROJECTS

■ Machine Learning & Dashboard Solution (Logistics): Developed an advanced analytics platform for one of the largest logistics companies, leveraging machine learning to optimize operations and provide real-time insights via a comprehensive dashboard.

■ Enterprise Document Management System (SaaS): A system to help large companies organize and manage their documents efficiently.

■ IT Job Search System (Software Development): A platform designed to simplify the job-hunting process in Sweden.

■ Hunting Land Locator and Booking Service (Travel & Tourism): A tool for hunters to find and reserve hunting locations.

■ Social Network for Creative Professionals (Social Media): A networking platform specifically for photographers, videomakers, and ad creators.
